

Module 2: Design Like a Pro

Lesson 3: Engaging Layouts

3CPO Checklist

Composition

- Bullets have varied movement
- Images have varied movement
- No more than 3-5 bullets per screen
- Can read everything on screen twice outloud in time it is on screen
- Screen not filled with text
- Movement of all elements (images, bullets, text, video) occurs one at a time

Credibility

- No common misspellings
- No typos
- AI reviewed copy and confirmed no commonly-found errors
- All references in material work as expected

Clarity

- Images highest possible resolution
- Images same resolution between slides/pages (so they look ok when toggled between them)
- Images tell a story that supports the slide's message
- Image relevant for the message
- Image necessary to convey the message
- Narration (if any) recorded without background noise
- Narration double-checked for pops and snaps and slurped S's

Pacing

Action = Fast pace, fast camera movements and cuts
Explaining = relaxed pace, pauses for reflection and for reading screen
Testimonial = slow pace, long takes, few cuts or zooms

- Content begins by hooking viewers with fast pace
- Content alternates pace to ensure engagement
- Can read everything on screen twice outloud in time it is on screen

Organization

- Style defined (fonts, colors, structure)
- Naming structure defined
- Folders created to store project artifacts
- Using templates
